ENERGYNATURE SYSTEM PRE-AGING

A care system for normal to dry skin.

Even skin aged 20+, which is still full of elasticity, needs tailored care that protects against early aging (“pre-aging”). An active lifestyle, stress and lack of sleep leave their marks – dull skin, first wrinkles caused by dryness, and dark circles round the eyes are the unwelcome accompanying symptoms.

The ENERGYNATURE care system range – System Pre-Aging, with an active ingredient developed exclusively by ANNEMARIE BÖRLIND that consists of stem cells from Black Forest rose plus organic caffeine, a menthol derivative, a phytonutrient from cress and hesperidin from the bitter orange, helps to reduce and conceal symptoms of fatigue with an extra boost of energy and moisture. For a naturally radiant complexion.

The energizing effect of the products is also reflected in the fragrance of this care system range: a fruity-citric freshness with floral-oriental influences.

Refreshing Cleansing Gel

This vegan gel for normal to dry skin cleanses, energizes and refreshes. Mild surfactants cleanse the face, neck and décolleté gently and thoroughly, and remove makeup. Organic caffeine has an invigorating effect.

Cooling Facial Gel

This vegan facial gel for normal to dry skin has a strengthening, energizing and cooling effect. An invigorating boost of moisture prepares the skin to an optimum for the day or night cream to be applied afterwards. A menthol derivative and organic caffeine provide an extra kick of freshness.

*32 % increase in skin moisture after 28 days of use.**

NATURAL BEAUTY

Vitalizing Day Cream

This vegan, triple-effect day cream for normal to dry skin protects, energizes and revitalizes. A new active ingredient, developed during many years of research by the Börlind development team and Akott Group Italia, has been used for the very first time in this product: a lipid extract from the stem cells of the “Black Forest Rose” from world-famous cultivators W. Kordes’ Söhne. This newly discovered extract helps to protect the skin’s natural collagen, making the skin supple. It also increases the flow of water in the cells, providing the skin with an improved supply of moisture. At the same time, it stimulates the skin’s natural production of hyaluronic acid. Organic caffeine invigorates and smooths the skin. The day cream also contains organic shea butter from the charitable project initiated by Börlind known as “organic shea butter from Mali”.

40 % increase in skin moisture after 28 days of use.
12 % smoother skin.**

Regenerative Night Cream

This vegan night cream for normal to dry skin has a caring, energizing and regenerative effect. A phytonutrient – extract of Swiss garden cress sprouts – is a detoxifying ingredient and an antioxidant. It activates both the detoxification process in the skin and the resistance of the skin cells against damaging influences from the environment. This effective anti-aging ingredient has a regenerative effect and also assists the natural regeneration process of the skin that takes place during the night. It counteracts visible signs of skin aging and protects against environmental stress factors. Organic caffeine invigorates the skin. The night cream also contains organic shea butter from the charitable project initiated by Börlind known as “organic shea butter from Mali”.

NATURAL BEAUTY

Anti-Puff Eye Serum

This vegan eye serum for normal to dry skin is applied to the cleansed skin around the eyes in the morning and evening with the cooling metal applicator. The serum has an anti-puff, energizing and soft-focus effect. Hesperidin from the bitter orange reduces dark circles. Organic caffeine provides an invigorating kick of freshness. Golden color pigments make dark circles look less severe and give the skin around the eyes a fresh, awake radiance. Optically softening.
