BODY CARE

Effectively nourished using nature's treasures.

Cleansing that revitalizes, firming care, natural freshness. With jojoba, aloe vera, torch lily or algae, BODY CARE responds to the skin's individual needs.

The BODY CARE line of personal care products comprises four different fragrance compositions that were developed for different skin types. Their presentation form is adapted to the relevant skin type. The personal care product line also contains two deodorants.

Our BODY CARE line is completely aligned with sustainability. We use plastic containers made of renewable raw materials (e.g., sugar cane from responsible cultivation) and recycling materials – at the cutting edge of technology and in harmony with our quality standards. We compensate for the carbon created in our production process by supporting our ClimateProject drinking water project in Cambodia. And many ingredients in the BODY CARE products come from our socio-ecological projects, such as torch lily extract from France, jojoba oil from Namibia and aloe vera from Guatemala.

All the products are:

- ✓ Climate-neutrally manufactured
- ✓ Sustainably packaged
- ✓ Separately recyclable
- ✓ With ingredients sourced from socio-ecological projects

FOR NORMAL SKIN:

SHOWER GEL

Mild cleansing for a velvety feeling of freshness. Organic torch lily nectar supports the skin's natural protection against free radicals. With organic lime tree bud extract for a revitalizing shower experience. BODY CARE Shower Gel is vegan. *Fruity, enveloping fragrance.*
